## A guide to creating a Slideshow

A photo presentation can provide a meaningful moment of reflection during the Service where sometimes words are difficult to express, or perhaps not enough to describe somebody's life. Accompanied by the music of your choice, the presentation can provide a lasting memory for generations to enjoy.

If you have decided to create a photo presentation yourself, here are some recommended guidelines that can be helpful:

- **30-35 photos** are ideal for a single song presentation.  
**60-65 photos** are ideal for a presentation with two songs.
- Fry Bros recommends using a **fade transition** between each photo, with each photo being displayed for a minimum of 3 seconds.
- Time the music so that it will end during the last slide in the presentation. This can be done by adjusting the time each photo is displayed.
- The photo presentation should be finalised as an **MP4** file at an aspect ratio of **16:9** for optimal quality.

**Please ensure Fry Bros Media Team receive the completed photo presentation by 10am a minimum of two business days before the Service.** This can be done by uploading the photo presentation through [WeTransfer.com](https://www.wetransfer.com) and emailed to [media@frybros.com.au](mailto:media@frybros.com.au), or provided on a USB clearly labelled with your loved one's name. This can be delivered to our East Maitland Office between **9am** and **5pm** Monday to Friday. As an alternative we can accept your photos by appointment at our Raymond Terrace office between **9am** and **3pm**.
